THE SIXTY-SECOND REPORT OF THE REGISTRAR-GENERAL ON THE VITAL STATISTICS OF QUEENSLAND FOR THE YEAR 1921.

The 1921 Annual Report on the Vital Statistics for the State of Queensland is herewith presented, the following tables enumerating and classifying the Births, Marriages, and Deaths, which occurred during the year.

On the 4th day of April, 1921, the Commonwealth Government took a Census of the people of Australia, but up to the present a very small portion of the report on that work has been published, hence my inability to make reference to any of its contents.

The Estimated Mean Population was 764,665, on which figure the Birth, Marriage, and Death Rates have been based.

BIRTHS.

The Births registered during the year numbered 20,333, thus constituting a record, exceeding the previous year's figure by 76. Of the foregoing 10,654 were males and 9,679 females. Although the number of Births is the highest yet attained in this State, the birthrate reveals a decrease of 1·01 per 1,000, falling from 27·58 in 1920 to 26·57 in 1921. This is accounted for by the correction of the Estimated Mean Population from the results of the 1921 Census which showed that that figure for 1920 was underestimated.

There were 1,059 infants born out of wedlock. Of this number 526 were males and 533 females. One hundred and eighty children, comprising 85 males and 95 females were legitimized under the provisions of "The Legitimation Act." The number of multiple births was 197, including 209 male and 183 female twins and 2 male and 1 female triplets.

MARRIAGES.

There were 5,965 marriages solemnized in Queensland during 1921, a decrease of 705 on last year's figure. The marriage rate dropped from 9·08 in 1920 to 7·80 in 1921—a decline of 1·28.

The Religions of the various grooms and brides were as follows:—

Church of England	1,815
Roman Catholic	1.236
Methodist	983
Presbyterian	894
Other Denominations	871
And by Registrars	166

DEATHS.

The Deaths numbered 7,143, of whom 4,396 were males and 2,747 females. This represents a decrease of 803 on the previous year. The reappearance of Bubonic Plague was not as menacing as it might have been owing to the effective measures taken by the Authorities. The principal causes of death were:—

Organic Diseases of the Heart	819
Cancer (all kinds)	604
Congenital Debility, &c.	478
Senile Debility	448
Diarrhœa and Enteritis (under and over two years)	396
Tuberculosis (all parts)	362
Bright's Disease	271

Again, as in 1920, it is gratifying to be able to report a decrease in the Infantile Mortality; the rate falling from 6·34 in 1920 to 5·41 in 1921.

The outstanding features are as follows:—

Increase in Births.

Decrease in Deaths, Marriages, and Infantile Mortality.

NOTE.—The Curator of Intestate Estates is empowered to apply for an order to administer the Estate of any deceased person leaving real or personal estate who has died intestate, and who leaves no widow nor next of kin resident within the jurisdiction of the Court; also, when any person has died testate and appointed the Curator as executor, or leaving no executor, or no executor willing and capable of acting in execution of his Will; or when any person has died testate and the Court is satisfied that any of the effects of the deceased may probably be purloined, lost, or destroyed; and in a few other instances where urgency is required.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest, the purchase money being nominal.

* From 1883 number and tonnage of vessels calling at more than one port in Queensland during same voyage only counted once.

† Prior to 1907 the exports of wool have been taken as the production of wool, scoured being expressed as greasy on the basis that one pound of the former equals two pounds of the latter, except for the years previous to 1866. when greasy and scoured wools were not separated in the Customs returns.
